

Driven by Knowledge Powered by Technology

COMPLIANCE CONSULTING & TECHNOLOGY

PRB CONSULTING

Expert-led consulting, backed by our own technology

Fifteen years of compliance management practice, helping organisations achieve seamless ISO, regulatory and contractual compliance – delivered as consulting, as a managed service, or through ICMS, our own AI-enabled compliance platform.

OUR PRODUCTS & SERVICES

ICMS 1.5

Our AI-enabled compliance automation platform, centralizing audits, documentation, evidence management, risk tracking, alerts, dashboards and regulatory monitoring in real time.

For: a defined need, on demand

ISO Training & Certification

Industry-focused programmes equipping students, professionals and organisations with practical knowledge of ISO standards, audit methodologies and implementation practice.

For: building the capability in-house

Managed Compliance

A complete Compliance-as-a-Service model where PRB manages your compliance lifecycle – audits, documentation, risk management, monitoring, alerts and continual improvement.

For: perpetual, day-to-day compliance

Project-Based Consulting

Flexible, scalable support for a specific requirement – an audit, a certification, an assessment or a regulatory need – without maintaining a full-time consulting team.

For: a defined need, on demand

VISION

To redefine global compliance through innovation, automation and continual excellence

MISSION

To empower organisations and professionals with expert driven compliance solutions and AI-enabled ICMS automation – for smarter, faster and more sustainable compliance management.

200+

CLIENTS SERVED

COMPLIANCE AS A SERVICE

Managed Compliance

We take end-to-end ownership of the compliance lifecycle – audits, documentation, risk, monitoring, alerts and continual improvement

Compliance Demystified

Complex compliance requirements simplified through a structured, technology-driven and expert managed approach – so obligations are understood before they are engineered

Holistic Compliance Management

A comprehensive framework covering governance, risk, audits, documentation and regulatory obligations, designed for perpetual rather than periodic compliance.

Compliance as Business-as-Usual

Compliance moves from a periodic activity to an integrated day-to-day operational practice, with continual monitoring and improvement built into the routine.

Sector-Agnostic Approach

The model adapts across healthcare, IT, manufacturing, banking, government, education and critical infrastructure – the framework holds, the content changes

Complete Accountability & Ownership

PRB acts as your strategic compliance partner with end-to-end accountability for compliance management, audit readiness, risk mitigation and continual improvement.

Optimised Cost & Risk

Automation, centralised management and proactive governance cut compliance and risk management costs substantially against traditional compliance practice

PRB's benchmark: **over 50% cost reduction**

WHAT THE ENGAGEMENT COVERS

Audit lifecycle – planning, internal audits, findings and corrective actions through to certification readiness · Documentation – policies, procedures, records and version control maintained to the standard · Risk management – assessment, treatment and continual review · Monitoring & alerts – obligations, renewals and regulatory change tracked continuously · Compliance & benchmark testing – VAPT, red team, deep and dark web scanning, cloud security and IS audits · Continual improvement – reviewed, measured and reported cycle after cycle.

STANDARDS AND FRAMEWORKS WE MANAGE

MANAGEMENT SYSTEM STANDARDS

ISO 9001:2015 · ISO 14001:2015 ·
ISO 45001:2018 · ISO 22301:2019
